

# Project kits

Project kits are step-by-step guides to creating successful projects within and outside of eTwinning. The kits can be used as examples to follow or as a source of inspiration for new project ideas.

PROJECT KITS | 03.10.2024

## Digital citizenship gallery

This project kit gives ideas on how to help secondary school pupils become responsible digital citizens.

PROJECT KITS | 20.12.2022

### STEAM pre-school academy

This kit focuses on STEAM education where students can explore and experience the world in a scientific way. Through interdisciplinary activities, little learners are encouraged to construct their own robots while reusing materials artistically.

PROJECT KITS | 19.12.2022

### SAGE: Solutions Against the Greenhouse Effect

Global warming, a result of climate change, is a phenomenon that is recognised by scientists. Unfortunately, it is disputed by some in the media and on the internet via social networks without any scientific basis.
